

89-1?

A RESOLUTION OF THE FOX CANYON  
GROUNDWATER MANAGEMENT AGENCY  
TO SUPPORT THE GOALS AND OBJECTIVES  
OF THE  
COOPERATIVE WEATHER NETWORK  
OF  
VENTURA COUNTY

WHEREAS: Weather data is vital for the management of Natural Resources. These activities include air quality management, developing fire weather response plans, determining irrigation demands and many other activities; and

WHEREAS: The expansion and coordination of local agencies' weather data collecting efforts will provide better coverage and will eliminate duplication of effort; and

WHEREAS: The availability of the collected data through a centralized data base will facilitate the acquisition and effective use of the data by the participating agencies, other governmental agencies, and the public at large.

NOW, THEREFORE, BE IT RESOLVED AND ORDERED that the Fox Canyon Groundwater Management Agency Board of Directors endorses and supports the Cooperative Weather Network of Ventura County and pledges its participation in a County-wide effort with other agencies in Ventura County to collect and utilize weather information for natural resource management determined to be cost effective and beneficial.

Approved and Adopted John K. Flynn 2/24/89
