

Preliminary Draft- Subject to Revision

PROJECT DETAILS FOR SIMULATIONS OF FUTURE CONDITIONS UCWD MODEL OF OXNARD, PV, AND WLP

Proponent	Status	Basin(s)	Project Name	PROJECT	VOLUME AFY	MODEL ZONE	WELL	YEARS OF OPERATION	COMMENT
Oxnard	existing and future	OPV	GREAT Program Advanced Water Purification Facility- Provide water to agricultural customers	GREAT Phase I - RW to reduce pumping	4600	Z4/ L7,L9,L11,L13		2020-2070	If there is insufficient pumping in LAS divert surplus to reducing pumping in L5. L3
Oxnard	existing and future	OXN	GREAT Program Advanced Water Purification Facility	Oxnard GREAT credit EXTRACTIONS	variable, see tab		02N22W23C05, 02N22W23C0	See tab GREAT credit pumping	
UWCD	future	OXN	Riverpark-Saticoy GRRP Recycled Water Project	GREAT Phase II RW recharge	4500	Z16/L1		2025-2070	Saticoy Spreading basins
OXN/PV AG Owner	future	OXN	Temporary Agricultural Land Fallowing	Oxnard Fallowing to reduce pumping	504	Z4		2020-2070	01N22W26K04S, 01N22W27H02S, 01N22W26M03S, 01N22W26K03S, 01N22W26P02S, 01N22W26Q03S, and 01N22W26D05S
OXN/PV AG Owner	future	PV	Temporary Agricultural Land Fallowing	PV Fallowing to reduce pumping	2407	Z11/L3, L5, L7,9,11,13		2020-2070	Eliminate 1799 AFY pumping in LAS and 608 AFY in UAS
Camarillo	existing and future	PV	NPV Desalter	NPV De-Salter pumping	4500	L9, L11	02N20W19F04S, 02N20W19L0	8/2020 to 7/2045	
Camarillo	existing	PV	Camarillo Recycled Water Program	Camarillo Recycled Water Program				2010 -2070	
Camrosa	existing	PV	Conejo Creek Diversion per Resolution No. 2014-01	Conejo Creek diversion deliveries					
Camrosa	existing	PV	Conejo Creek Diversion per Resolution No. 2014-01	Conejo Creek diversion pumping			02N20W29C01, 02N20W29B02		Note: Camrosa listed wrong SWN for Wood Creek Well
CMWD	(existing) future	LPV	Purchase of Imported Water from CMWD for basin replenishment	WLP in-lieu imported water	1762	Z12/ L9,11,13		2020-2070	Eastern end of Zone 12 if possible
Proponent	Status	Basin(s)	Project Name	NOTES:					
Oxnard	future	OPV	GREAT Program Advanced Water Purification Facility- Campus Park ASR	<i>Pilot project in design - Storage Project</i>					
Oxnard	existing and future	OXN	GREAT Program Advanced Water Purification Facility- provide water to City facilities and M&I Customers	<i>Limited data provided. Project to be considered in City's Water Business Plan</i>					
Oxnard	existing	OXN	Recycled Water Program per Resolution No. 2003-05	<i>Data submitted for Recycled Water Program was same as GREAT program</i>					
UWCD	existing	OXN	Freeman Diversion and spreading/recharge basins	<i>Internal to Model</i>					
UWCD	future	OXN	Freeman Expansion						
UWCD	existing	OXN	Importation of State Water	<i>Internal to Model</i>					
UWCD	existing	OXN	Oxnard - Hueneme (O-H) Pipeline	<i>Internal to Model</i>					
UWCD	existing	OXN	Pumping Trough (PTP) Pipeline	<i>Internal to Model</i>					
CMWD	(existing) future	OXN	Purchase of Imported Water from CMWD for basin replenishment - City of Oxnard						
CMWD	(existing) future	PV	Purchase of Imported Water from CMWD for basin replenishment - City of Camarillo
