Flowmeter Calibration Waiver / Extension Application

Resolution No. 2008-04 Section 1.1.A requires groundwater extraction flowmeters be tested for accuracy every three (3) years to demonstrate accuracy within a range of plus or minus 5%. **After the initial calibration**, a waiver may be granted to this requirement to those well owners or operators with a pump motor of less than or equal to 10 horsepower and that extract less than or equal to 10 acre-ft of groundwater, averaged over a period of five (5) years.

In addition, after a five-year period has expired from initial calibration, the well owner can apply for an additional five-year waiver. In no case shall the flowmeter be calibrated less than every 10 years.

I certify that the identified subject groundwater extraction facility's flowmeter is qualified for a flowmeter calibration waiver/extension based on:

(Please initial below)

The initial calibration is on file with the Agency and is not more than 10 years old.

Date of last calibration: ____ / ____ / ____

The pump motor is less than or equal to 10 horsepower (HP).

My motor pump is ____ HP. (Provide documentation.)

Less than or equal to 10 acre-feet per year (AFY) of groundwater has been extracted over the last five (5) years.

Note: Ordinance Code Section 2.3 requires that all extractions be reported to the Agency. All extractions shall be flowmetered in accordance with the requirements and methods for flowmetering extractions as specified in Chapter 3. Semi-Annual Groundwater Extraction statements shall be submitted on or before the due date which is forty-five (45) days after the statements are mailed.

Extraction facility: State Well No. ____ N ____ W ____

Flowmeter Serial No. _____

Signature:

I declare under penalty of perjury under the laws of the State of California that the information contained in this application is true and correct.
